WORKING PAPERS

1. Job Market Paper: Another Baby Boom? How Same-Sex Marriage and the Affordable Care Act Increased Births in the US

By: Maximilien Bielsa

[LINK](#)

Assisted Reproductive Treatment (ART) clinics use various procedures to help patients facing infertility issues and same-sex couples have children. Using CDC Data, I find that same-sex marriage legalization boosted frozen donated births by 6-10 births per clinic. Due to the improving health profile of individuals receiving ART treatments, this impact is likely driven by same-sex couples' uptake of ART. Additionally, these increases were distinct from the increased usage of ART due to the Affordable Care Act. However, subsequently, these effects diminish at the clinic level due to an increase in the number of clinics and an exhaustion of the demand.

2. Same-Sex Marriage's Impact on Adoptive Same-Sex Families

EXPERIENCE

University of Delaware - Department of Economics Summer/Winter 2022, Winter 2023, & Fall 2024-Spring 2026

Instructor

Newark, DE

- Intro to Microeconomics, Intro to Macroeconomics, and Economic Issues and Policies: Average Class Size of 10 to 40 students
- Substitute Lecturer for a class of Intro to Macroeconomics containing 200+ students in Fall 2022
- Created and implemented lesson plans and engaged with student learning objectives

University of Delaware - Department of Economics
Head Teaching Assistant

Spring 2023 - Spring 2024
 Newark, DE

- Oversaw a team of 4-6 Teaching Assistants
- Worked on lesson plans for Discussion Sections taught by Teaching Assistants
- Assisted with and organized classrooms of 150+ students
- Ran weekly meetings to discuss and brief the Teaching Assistants on that week's lesson plan

University of Delaware - Department of Economics & Business Analytics
Teaching Assistant

Fall 2020 - Fall 2022
 Newark, DE

- Taught Discussion Sessions weekly for 2-4 classes of up to 30 students
- Graded 150+ student exams and homework weekly
- Attended weekly meetings and made suggestions to improve lesson planning

University of Delaware - Department of Economics
Research Assistant

Fall 2019 - Spring 2020
 Newark, DE

- Worked with data about the Women, Infants, and Children (WIC) program
- Created a dataset of cereal UPCs to merge with scanner data
- Read academic papers and identified potentially useful econometric methods

Rowan University - Department of Anthropology
Research Assistant

Spring 2016 - Spring 2019
 Glassboro, NJ

- Collected data used to identify animal species using fragmented Bone Microscopy
- Analyzed patterns in Artificial Cranial Modification amongst males and females of the Diaguita III region
- Understood past methodology, and wrote papers on the statistical methods used in these analyses

PUBLICATIONS (NOT ECONOMICS)

Identification and Measurements of Artificial Cranial Modification in Diaguita III Peoples of Chile's Semi-arid North

International Journal of Arts, Humanities and Social Sciences Volume 07; Issue no 02: February 2026
